## Extreme XF

### Alkaline Liquid Cleaner

Internationally  
and  
Independently  
Tested

#### General Description

**Extreme XF** is a foaming alkaline liquid cleaner, which is soft metal safe, suitable for applications in a wide range of Food and Beverage Industries, particularly where oily and fatty soils are a problem.

**Extreme XF** contains a balanced blend of highly alkaline ingredients and emulsifiers to provide quick and effective removal of organic soils and fatty deposits. Soil penetration, dispersion and suspension is rapid, ensuring free rinsing, to obtain a clean, streak free surface.

**Extreme XF** is recommended for use in all areas of food and beverage plants. Its unique formula ensures rich clinging foam. The blend of surfactants and solvents make **Extreme XF** very effective against soils found in food and beverage facilities. Free rinsing agents speed up final removal of soils, leaving the surface clean and film free.

**Extreme XF has been Internationally & Independently tested and assessed as safe for use in the food processing industry when used as directed.**

#### Advantages and Benefits

- Safe to use on all metal and painted surfaces.
- Recommended use dilution temperature 5°C - 45°C
- Rinses off easily with no streaking or smearing.

#### Usage Recommendations

Extreme XF may be applied either through a pressurised water supply, fitted with a post pump chemical injector and a compressed air supply, or by using a special pressurised chemical applicator or by applying it manually using a bucket.

Pre rinse all surfaces thoroughly to remove loose soil particles. Apply **Extreme XF** at a 2-5% dilution. Allow contact time of 5 to 15 minutes, scrub the surfaces/area, and then rinse off thoroughly with water.

#### SAFETY PRECAUTIONS

Extreme XF is an alkaline liquid cleaner.

The concentrated product is corrosive,  
Avoid contact with skin and eyes.

Wear suitable protective clothing when handling **Extreme XF**,
