AGRISETA SECTOR SKILLS COMMITTEE PLENARY SESSION AND MEETING

The Red Meat Abattoir Association represented the Red Meat Industry at a two day plenary session and meeting on 30-31 August 2017 at Birchwood Hotel & OR Tambo Conference Centre.

During the plenary meeting, research sessions were facilitated by MATPRODev Research Company in collaboration with the University of Johannesburg. The focus of the surveys were on very important aspects of Skills Development to obtain information on agricultural change drivers, transformation, growth, competitiveness, sustainability and if they are well governed and mentored.

Participation in these research exercises was of great value and delegates were asked to complete the surveys. The need arise to distribute the surveys to Abattoirs and Members of the Red Meat Abattoir Association, so that a broader picture and more information can be obtained and submitted for our Sub Sector.

Your assistance is required to complete the survey document attached hereto. Return the completed survey by no later than **22 September 2017** to ella@rmaa.co.za
